## Fly Screen Rafter Trays

### Product Description

Corovent integral Fly Screen Rafter Trays are designed for roofs with open eaves. The trays provide a clear air passage from the eaves to the roof void, by preventing insulation from obstructing the ventilation. They also prevent the entry of large insects, birds and vermin.

- **RF60** is suitable for 600mm rafter centres and provides 10mm continuous air gap
- **RF40** is suitable for 400mm rafter centres and provides 10mm continuous air gap

Product Requirements	RF60	RF40
Statutory Requirements	To provide ventilation in accordance with Building Regs Document C2 & BS5250:2011 and Building Standards (Scotland) Regulations	To provide ventilation in accordance with Building Regs Document C2 & BS5250:2011 and Building Standards (Scotland) Regulations
Functional Requirements	To prevent the insulation from obstructing ventilation and provide 10mm per metre clear air gap. Prevent the entry of large insects and vermin. To fit 600mm rafter centres and be easily fixed.	To prevent the insulation from obstructing ventilation and provide 10mm per metre clear air gap. Prevent the entry of large insects and vermin. To fit 400mm rafter centres and be easily fixed.

Product Specifications	RF60	RF40
Product Code	<b>RF60</b>	<b>RF40</b>
Nominal Length	600mm	400mm
Nominal Width	330mm	330mm
Nominal Depth	40mm	40mm
Thickness	0.5mm	0.5mm
Material	HIPS	HIPS
Weight	0.18Kg	0.17Kg
Colour	Black	Black
