Supporting our Customers

We've been aligned to the merchant market for over 60 years and our business model in Staveley is built around supporting the builders' merchant market.

We have a dedicated national sales team in the field and back-office support teams based in Burscough & Staveley.

Sales Office

Our sales office is open five days a week from 08:30 to 17:00 (Monday to Thursday) and 08:30 to 16:15 on Fridays to receive orders via EDI or email.

Orderline email: sales@arielplastics.com

Customer Services

We have access to your full order history, past and present, and customer account specific notation system/call log, allowing us to respond quickly to your queries and requests.

Get in touch via apcustomerservices@arielplastics.com

Technical Support

We offer the very best advice and technical expertise to customers with trained, competent staff ready and willing to answer queries.

Call us on 01246 281111 or email us on aptechnical@arielplastics.com

Quotations

A list price quotation service is available for most projects.

Give us a call on 01246 561104 or send us an email at quotes@arielplastics.com

For cut to size quotes, please email cts@arielplastics.com

Logistics

We have our own delivery fleet of 45 vehicles plus 19 trailers, providing national coverage. Our well-established distribution network operates from sites in Staveley, Burscough, Luton and Cumbernauld.

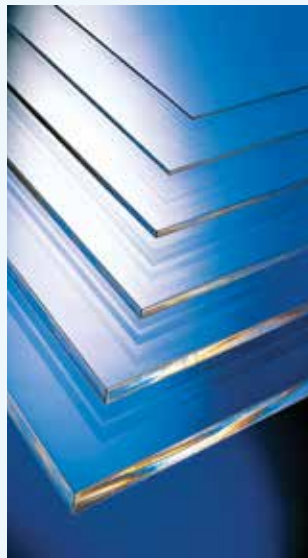

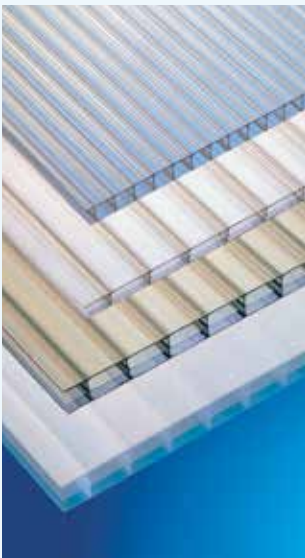

Our fleet consists of both double deck and open span vehicles, allowing sheet products to be carried both vertically and horizontally which aids in the reduction of damages. Carrier deliveries are made by trusted partners.

Cut to Size Sheet Service

We offer a bespoke cutting service
to exact size requirements for:

Multiwall polycarbonate and flat glazing ranges,
delivered in 3 to 5 days nationwide.

It's as simple as:

Give us a ring on
01246 281111 for a quote

Raise an order
with us

We'll deliver in 3-5 days
directly to your customer!

Access to Product Information

Our website is your go-to resource, providing comprehensive and easily accessible product information to help you make decisions with ease.

Resources

If you're looking for product guides or compliance certificates, installation guides or technical data sheets, simply visit arielplastics.com/en-gb/resources.aspx where we have a host of information at the touch of a button. There are also installation videos on a multitude of products to view.

Marketing

Our marketing team is on hand to help boost your sales. We offer a variety of marketing materials, including point of sale display material, product imagery, PIM data, and product literature.

We love collaborating with our customers and are happy to get involved in Trade Days and joint marketing activities to create a powerful impact.

To contact us, email marketing@arielplastics.com

Keep in touch

Situated in the Midlands, Staveley is ideally located as the head office for our national sales and distribution operations. Reflecting the growing demand for Cut to Size services, our facility in Burscough provides our customers with a one-stop shop for all their building plastic needs.

In addition, we have distribution hubs in Luton and Cumbernauld.

Corodrain

Roof Drainage

Corodrain valley troughs can be used on both slate and tiled roofs and with any combination of double or interlocking slates, clay or concrete tiles. Corodrain can also provide a weatherproof seal between roofs of terraced houses or where a new roof needs to join an existing roof.

Features

- Cost effective alternative to lead
- Maintenance free
- UV light and acid rain resistant
- Smooth finish inhibits growth of moss or build up of debris
- Significant reduction in installation time
- Largest range of lengths available

BBA
Approved

Coroverge

Universal Dry Verge System

Coroverge is a mortar free dry verge system which acts as a closure on the roof verge of houses, garages and porches to protect tiles from wind uplift, pest infestation and weather degradation in accordance with BS5534.

Features

- Fully adjustable for batten gauges of 260-350mm
- Hardwearing and durable
- Quick and easy to install
- Selection of popular colours

100%
Mortar

Great Impact Resistance

Vistalux

Corrugated PVC

Economic, lightweight and easy to install, Vistalux is a versatile corrugated rooflight sheet for car ports, canopies and gazebos. It is easy to cut, drill and install with standard DIY tools and is available in a choice of corrugated profiles in clear or translucent tint options.

Sheet Profile

Features

- Wide range of profiles, lengths and weights
- UV resistant for durability
- Largely self-cleaning
- Ideal for carports, covered walkways, porches, splash barriers, cloches & cold frames, planhouses and side cladding

UV Resistant

BITUMEN ROOFING SHEETS

We offer both Coroline and Onduline ranges of environmentally friendly roofing options. Both Coroline and Onduline corrugated bitumen sheets are tough and lightweight, made from bitumen saturated organic fibres.

Sheet Profile

Features

- Economical, resilient & simple to fix
- High insulation & sound absorbency values
- Ideal for garden sheds, garages, stables & agricultural buildings

15 Year Waterproofing Guarantee

BARDOLINE CLASSIC bitumen roof shingles are designed to cover the roofs of leisure buildings and are a popular choice in the UK for keeping garden sheds, garden rooms, garages, verandas and other outbuildings watertight.

Features

- High quality bituminous roof shingles
- Choice of colours
- Lightweight and highly durable
- Easy to install

Choice of Colours

ISOLINE® LOW LINE acts as the primary waterproofing layer of a roof, making roof tiles a secondary line of defence. It catches any water that manages to pass through the tiles and drains it down to gutter level.

Sheet Profile

Features

- Eco responsible
- Lightweight
- BBA approved
- Ideal for low pitch roofs from 10°

30 Year Waterproofing Guarantee

BITUMEN & METAL

Innoline offers an authentic tile-like appearance with a smooth finish. Available in 3 colours, Innoline matches with main house roofs and is ideal for leisure buildings and garden sheds.

Features

- Made from recycled materials
- Lightweight - easy to handle
- Compact - easy to transport
- Fast installation

**2026

For Pitches of 2°-35°

Daylight for living

Brett Martin Rooflights and Roof Lanterns offer a reliable solution for bringing natural light into your home or building. Whether it's a new build, extension, or renovation, these Brett Martin Rooflights and Roof Lanterns are designed for domestic and commercial use.

Hygienic Cladding

Ariel's hygienic cladding sheets offer an attractive finish to walls and ceilings.

The range includes solid PVC sheets in a satin finish, available in 20 colours, and foam PVC sheets with a gloss finish available in 7 colours.

Both options offer resistance to moisture and chemicals and prohibit microbial materials from being absorbed into the sheets, making them a popular choice for hygienic cladding projects.

Coroclad Satin

Solid PVC Hygienic Cladding Sheet

Available in 20 colours, Coroclad Satin is a solid PVC hygienic cladding sheet that offers a versatile and practical solution for wall and ceiling cladding projects where hygiene is paramount. Available in a range of thicknesses, Coroclad is impervious to dirt and resistant to moisture and chemicals, making it suitable for a variety of spaces.

7 Colours in stock for fast delivery!

Features

- Solid PVC in satin finish
- Non-porous surface prohibits microbial material from absorbing into sheets
- Resistant to moisture and chemicals
- Very tough and durable
- Easy clean, smooth surface

20
Colours

Coroclad Gloss

Foam PVC Hygienic Cladding Sheet

Available in 7 colours, Coroclad Gloss is characterised by its high gloss finish. Resistant to moisture, chemicals and dirt, this rigid foam PVC flat sheet is suitable for a range of interior cladding applications.

Features

- Foam PVC with gloss finish
- Non-porous surface means microbial material cannot absorb into sheets
- Resistant to moisture and chemicals
- Wipe clean surface

7
Colours

Economy Clad

Foam PVC General Cladding Sheet

Economy Clad is a cost effective, lightweight wall and ceiling cladding material particularly suited where hygiene is not a primary concern and in areas where minimal contact is likely from trolleys or loading equipment.

Features

- Foam PVC
- Lightweight and easy to handle
- Suitable for a wide range of general cladding projects
- Modern, sleek finish

Lightweight
